There is approximately 5 acres of beautiful flat pasture that would be great for horses crops or an orchard. There is approximately 10 acres of a mixture of hardwoods and pines with around an acre cleared for a home site. The seller has made some improvements a super nice driveway leading to a home site with a foundation in place if you would like. There is power and city water on property. There are some really nice trophy deer and turkey on the area and that use this property. The Cahaba River Management area is just a few miles away.
